## 264. Ugly Number II

## 题目描述: https://leetcode.com/problems/ugly-number-ii/

ugly number 是素数只有2,3,5的倍数。 求第n个ugly number

## 解题思路:

用三个指针,t2, t3, t5分别意思是t2:第t2个该和2相乘的数字t3:第t3个该和3相乘的数字t5:第t5个该和5相乘的数字

## 代码:

```
class Solution {
public:
    int nthUglyNumber(int n) {
       if(n < 0)
            return 0;
       if(n == 1)
            return 1;
       int t2 = 0, t3 = 0, t5 = 0;
       vector<int> f(n);
       f[0] = 1;
       for(int i = 1; i < n; i++) {
           f[i] = min(f[t2]*2, min(f[t3]*3, f[t5]*5));
           if(f[i] == f[t2]*2)
                t2++;
           if(f[i] == f[t3]*3)
                t3++;
           if(f[i] == f[t5]*5)
                t5++;
       }
       return f[n-1];
    }
};
```
